Since you came right in my life
My life is changin'
It's gettin' better all the time
Since you came, since you were mine, mmm-mmm

There's only one thing that's going through my mind
I just wanna be with you, oooh

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
And in your mind
I wanna, I wanna be
I wanna be with you

Since you came, since you were mine, mmm-mmm
I've got this feeling, nothing will ever be the same
'Cause you got a hold on me so tight that I can't sleep at night

There's only one thing that's going through my mind
I just wanna be with you, oooh

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
And in your mind
I wanna, I wanna be
I wanna be with you

(At your side)

In your mind (In your mind)
It feels, it feels so fine!

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
And in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
And in your mind
I wanna be
I wanna be with you

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
And in your mind
I wanna, I wanna be
I wanna be with you

I wanna be at your side
I wanna be in your mind
I wanna, I wanna be
I wanna be with you
